

PROFESSIONAL EXPERIENCE

- ClassQuiz** *🔗*, Unity Developer (Promoted)

10/2024 – present
Sousse, Tunisia

- Rebuilt ClassQuiz’s **modular unit testing**, and **benchmarking** system, reducing loading times to around **50%**, and enabling **faster iteration** for developers.
 - Redesigned XP and leveling logic which increased **player engagement** and playtime by **30%**.
 - Replaced manual **benchmarking** setup with **configurable task automation**, reducing test setup time and allowing non-technical team members to run scenarios independently.
- ClassQuiz** *🔗*, Unity Intern

07/2024 – 09/2024
Sousse, Tunisia

- Refined game mechanics through **design patterns** like **Object Pooling**, **Command**, and **Singleton**, earning **95% positive feedback** from beta testers during user trials.
 - Shipped V13 across **five platforms**, delivering a stable release on schedule.
 - Shaped sprint planning across **12+ cycles**, improving task allocation and delivery consistency by adhering to **SCRUM methodology**.
- DM-Nova** *🔗*, Unity Intern

06/2023 – 08/2023
Sousse, Tunisia

- **Refactored 1,000+** lines of **C#** to deliver **four mini-games** for the Khotoua app, **reducing load times by 15%**.
 - **Fixed over 20 gameplay mechanic bugs** in mini-games, leading to smoother gameplay and a **10% FPS increase**.

PROJECTS

- Online Multiplayer Plugin**

- Constructed a lightweight and reusable online multiplayer plugin utilizing **Socket.IO** *🔗* over **TCP**, facilitating seamless real-time 1v1 gameplay within turn-based and race-style games for ClassQuiz’s **300,000+** user platform.
- LearniVerse**

- Built an **AR** learning application with **XREAL SDK**, delivering step-by-step workshop guidance through **AR glasses**. It enables students to visualize and replicate tasks in real-time using interactive overlays, bridging theory with hands-on practice

SKILLS

Engine & Languages: Unity, C#, C++, Java

| **Systems & Architecture:** OOP, Design Patterns, Socket.IO *🔗* / TCP Networking, Benchmarking, Scriptable Objects

| **XR Development:** Meta SDK (VR), XReal SDK (AR), Unity XR Toolkit

| **Project management & Version Control:** Git, ClickUp, Trello, Slack

| **Animation & UI:** DOTween, Unity UI (uGUI)

LANGUAGES

Arabic: Native/Bilingual | **English:** Fluent | **French:** Proficient

EXTRA CURRICULAR ACTIVITIES

- Unity Tutor**

- Delivered Unity and VR basics to **10** Singapore Polytechnic students over 4 days (in English), concluding with a custom school-assigned test, In addition to training **14** club members in **OOP** and **Unity** through a game I designed.
- Club President**

- Directed membership growth initiatives within the club resulting in an increase from **26 members** to **over 60 members**; cultivated strong engagement through regular meetings and collaborative projects focused on community impact.

EDUCATION

- Software Engineering Degree**, Higher Institute of Applied Science and Technology of Sousse *🔗*

2020 – 2025
Sousse, Tunisia

- Relevant coursework: Algorithms, Data Structures, Object-Oriented Programming, Software Development & Architecture.
 - Graduated in **2025**.
